

# SPEED-V

## Stabilized Panoramic Automatic Intruder Detection and Recognition System

- Specially designed for ground vehicles using tall mast mounting.
- Light weight turret with high performance and long range EO/IR system .
- Sensors:
  - IR camera – Long Range.
  - CCD TV - color.
  - CCD TV Spotter – for long range observation or very high resolution.
  - Laser Range Finder – for target location coordinates.
  - Laser Pointer.
- Modes of Operation:
  - Observation.
  - Scan - Wide panoramic scan and display.
- Real time automatic intruder detection in Scan Mode - Virtual Fence.
- Intruder recognition while scanning.
- Intruder ID and tracking using Observation Mode.
- Day/Night 24/7 use.
- Long and variable ranges for Virtual Fence of several kilometers.
- Multi target detection.
- Passive – no RF radiation.
- Target acquisition by coordinates.
